

dfcu Bank Statement on Factually Inaccurate articles on Social Media

Over the past several weeks there has been false, misleading or fictitious information on social media and in articles disseminated in some online publications about the Bank, its Chairman Mr. Jimmy D. Mugerwa and the Chief Executive Officer Mr. Juma Kisaame.

dfcu Bank unequivocally states that there is no substance to the articles. We would like to reiterate that this is a deliberately orchestrated effort by a few individuals with total disregard of the impact this has on the confidence of the Banking Sector, Uganda's economy and the reputation of good people.

The Bank reserves the right to institute legal proceedings against those perpetuating these malicious stories. We urge members of the public to treat these articles with the contempt they deserve and be assured that **dfcu** remains a solid bank whose leadership has overseen its growth to become the 2nd largest bank in Uganda.

The board, management and staff of **dfcu** Bank across Uganda remain committed in service to its customers and our nation.

On behalf of the Board of Directors

Agnes Tibayeita Isharaza

Company Secretary
